

One-bedroom lower flat available to finish

A bright 670 square-foot home facing south and east is waiting for a new owner to choose interior materials and fixtures--cabinets, flooring, lighting, colors, and appliances. It features a large bedroom with windows looking out onto a city park and a huge walk-in closet. The bathroom has room for stacked washer and dryer and has an ADA accessible shower. The compact kitchen adjoins the great room with entrances from the central hall and a small patio. Share a wide front porch with neighbors, and enjoy your own patio overlooking the street. The Common House with guest rooms and shared public spaces for community meals, activities, and events is just a few steps away.
